Judy Pruim, LBSW, is the manager of the Oakridge Teen Health Center. She earned her Bachelor's Degree in Social Work from Western Michigan University and is a licensed Social Worker in the State of Michigan.

Judy chose the field of social work because she likes working with people and has a determination to make a difference. "I believe information is the key to success and the more information people have about their health the better choices they will make to keep themselves healthy and successful."

A native of West Michigan, Judy loves the outdoors, walking, gardening and camping. Judy is from a large family, so spending quality time is very important and they do this frequently engaging in board games, cards and family fun time. She also enjoys traveling and experiencing new adventures.
