Dear Teachers,

We are so excited to share the news! Oakridge School District has adopted Pearson EasyBridge Plus that simplifies how you and your students access Pearson K12 digital products.

Your Pearson products include:

- Realize
- SuccessNet
- eText

You can now access Pearson EasyBridge Plus directly from PowerSchool. Once logged into the portal, select "Pearson Courses" from the application launcher.

Please find below your login instructions for Pearson EasyBridge Plus along with links to support and training resources. Please keep this information in a secure place.

**IMPORTANT:**

If you participated in Pearson Product Activation training recently and received school codes or a link to self-register and create your classes, you **do not need to self-register**. If you self-registered, you should stop using that account and access your Pearson products from [PowerSchool](#).

Thank you,

Pollie Gilchrist
