**INDEPENDENT AUDITOR'S REPORT**

October 31, 2017

Board of Education  
Oakridge Public Schools  
Muskegon, Michigan

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Oakridge Public Schools (the School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Education  
Oakridge Public Schools  
October 31, 2017  
Page 2

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Oakridge Public Schools as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension information on pages 3 through 11 and 40 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2017, on our consideration of Oakridge Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Oakridge Public Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Oakridge Public Schools' internal control over financial reporting and compliance.

Muskegon, Michigan

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

The discussion and analysis of Oakridge Public School's financial performance provides an overall review of the school district's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to provide, in layman's terms, a look at the district's performance and past and current position. We encourage readers to consider the information presented here in conjunction with the financial statements and the notes to the financial statements.

This information is required by GASB 34 (Governmental Accounting Standards Board's Statement No. 34). GASB 34 requires the presentation of two basic types of financial statements; namely, District-wide Financial Statements and Fund Financial Statements.

**Overview of the Financial Statements**

This annual report consists of four parts: (1) the independent auditor's report, (2) management's discussion and analysis, (3) the basic financial statements, and (4) required supplementary information. The financial statements also include notes that explain some of the information in the statements and provide more detail data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the district's budget for the year.

**District-wide Financial Statements**

The district-wide statements provide a financial perspective of the District as a whole. These statements are "full accrual" basis of accounting and provide information about the district's overall financial status. They are used to help determine whether or not the district is better off or worse off as the result of the year's activities. There are two district-wide statements: the *Statement of Net Position* and the *Statement of Activities*.

The *Statement of Net Position* reports all of the district's assets, deferred inflows and outflows, and liabilities, both short-term and long-term, regardless if they are "currently available" or not. Capital assets and long-term obligations of the district are reported in this statement.

The *Statement of Activities* accounts for the current year's revenues and expenses regardless of when cash is received or paid. The intent of this statement is to summarize and simplify the information relative to funding received and expenditures made for district services.

The two district-wide statements report the district's net position and how they have changed. Net Position – the difference between the district's assets, deferred inflows and outflows, and liabilities – is one way to measure the district's financial health or position.

- Over time, increases or decreases in the district's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the district's overall health, one needs to consider additional non-financial factors such as changes in the district's property tax base, the quality of the education provided, and the condition of the district's buildings.

In the district-wide statements, the district's activities are classified as *governmental activities*. This includes most of the district's basic services, such as regular and special education, food service, athletics, transportation, and administration. Property taxes and state aid finance most of these services.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

**Fund Financial Statements**

The fund financial statements focus on individual parts of the district, reporting the district's operations in more detail than the district-wide statements. The fund level statements are reported on a *modified accrual basis*. Only those assets that are "*measurable*" and "*currently available*" are reported. Liabilities are recognized to the extent they are normally expected to be paid with current financial resources.

The fund statements are formatted to comply with the legal requirements of the Michigan Department of Education's "Accounting Manual." In the State of Michigan, the district's major instructional and instructional support activities are reported in the *General Fund*. The primary funding sources for the general fund are from local property taxes, state foundation grant per student, state categorical funding for specific programs, federal grants and inter-governmental transfers.

Other funds include the Special Revenue Funds for Food Service and Technology Millage. The Debt Service Funds are used to record debt payments of principal and interest. Local property tax funds are used to pay the majority of the debt, with any unmet needs being covered by the Michigan School Bond Loan Program and Michigan School Loan Revolving Fund. The Capital Project Funds are used to record the costs associated with the acquisition of land, construction or improvement of school facilities, and for equipment purchases. The Agency Fund, known as internal accounts or student activity accounts, are held in a trustee capacity for various student or school related groups' financial transactions. Monies in these funds are not available for general school use.

**Financial Analysis of the District as a Whole**

The net position of the district as of June 30, 2017, amounted to approximately (\$17.2) million which represents a slight increase from the previous year as school districts are now mandated to calculate their proportionate share of net pension liability (see note H). Figure A-1 on the following page shows a condensed breakdown of the net position.

The largest portion of the district's net position reflects resources that are restricted as to how they may be used. This net position category represents investments in capital (e.g., land, buildings and improvements, and furniture and equipment), plus capital related deferred outflows of resources, less any related debt used to acquire those assets that are still outstanding. The district uses these capital assets to provide services to students; consequently, these assets are not available for spending. Although the district's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The debt used as a decrease to capital assets relates to general obligation bonds, which are paid from local property taxes.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

<b>Total net position</b>	<b>\$ (17,230,072)</b>	<b>\$ (17,515,788)</b>

**Comments on Major Changes to Net Position**

The net position of the district increased approximately \$286,000 during the 2016-17 year. Figure A-2 on the following page shows the breakdown of this change. The Statement of Activities presented later in the government-wide financial statements, provides greater detail on the district's annual activity. The cost of the district's governmental activities for the year increased to approximately \$22 million. However, the amount that the district's taxpayers ultimately financed for these activities was \$16.6 million because approximately \$5.4 million was paid for by participants and other governments and organizations who subsidized certain programs with grants and contributions. The remaining "public benefit" portion was paid for with property taxes, state pupil foundation aid, investment earnings, and other miscellaneous revenues.

**Comments on Capital Assets and Debt Administration**

*Capital Assets* – A summary of the District’s capital assets, net of depreciation, at year end is outlined in figure A-3 above. Additional information on the district’s capital assets can be found in note D of the Notes to the Financial Statements.

*Debt Administration* – A comparative summary of the District’s indebtedness at year end is outlined in figure A-4 below.

Under State statute, the District is legally restricted from incurring long-term bonded debt in excess of 15% of the assessed value of taxable property within the school district. Certain bonds are not included in the computation of the legal debt margin. At June 30, 2017, none of the District’s bonded debt is subject to the debt limit. Additional information on the Oakridge Public Schools’ long-term debt can be found in note G of the Notes to the Financial Statements.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

**Financial Analysis of the District's Funds**

The financial performance of the district as a whole is reflected in its governmental funds as well. The combined governmental funds equity decreased by approximately \$111,000 during the 2016-17 fiscal year, resulting in combined governmental fund equity of approximately \$2.3 million at year-end. The general fund equity ended the year at \$1,910,476 or 9.8% of expenditures. The primary factors affecting the district's governmental funds' fund balance are listed below.

**Factors Impacting Fund Equity**

- *Student enrollment* – Proposal A tied funding for school districts to student enrollment. The district's blended count on which our foundation allowance was based decreased by 22 students for the 2016-17 school year.
- *Retirement benefits* – The district's required contribution rate for retirement benefits for its employees ranged from 36.64 to 38.79% of payroll during 2016-17
- *Utility and fuel costs* – The district's costs for utilities remains highly volatile.
- *Sequestration* – Many federal programs are experiencing funding cuts due to sequestration. Additionally, sequestration will have a negative impact on the District's federal subsidy bond issue.

**General Fund Budgetary Highlights**

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to July 1, the start of the fiscal year. When the budget is prepared each year, several unknown factors exist. Estimates are used for such major items as student count, employee contracts, state aid, staffing, utilities, and tax appeals. When compared in total, the variances between the initial budget, final budget and actual results are minimal considering all the unknowns that exist during initial budgeting. As a matter of practice, the district amends its budget periodically during the year. These revisions are made in order to deal with unexpected changes in revenues and expenditures. The following analysis describes the reasons for changes in the budget during the year and the differences in actual and budget figures.

**Revenues**

One of the changes impacting the District's budget is the revenue received from the State of Michigan as the per pupil foundation allowance. The foundation grant for the 2016-17 year was \$7,511; an increase of \$120 per student compared to the previous year.

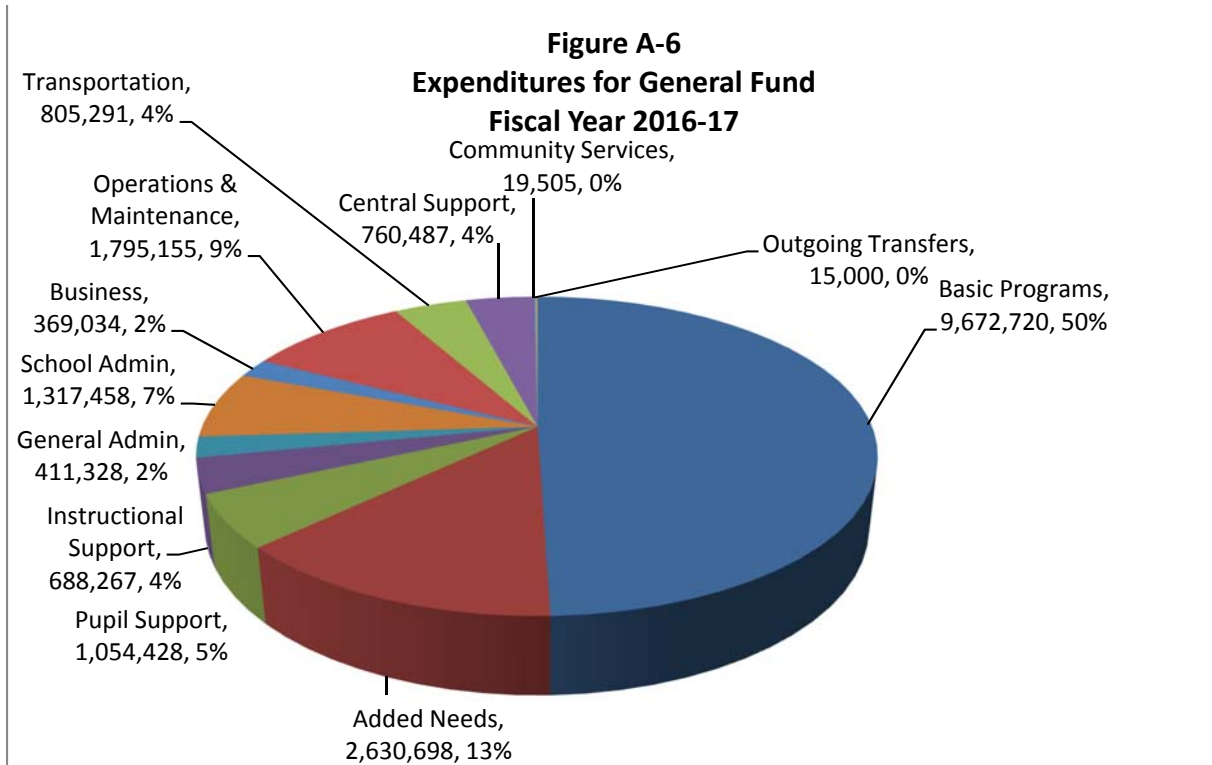

A substantial portion (87%) of the district's General Fund revenues is received from state sources. This means that the financial stability of the district rests primarily with the economic health of the State of Michigan. Figure A-5 depicts the breakdown of the sources of revenue and other financing sources for the district's General Fund that totaled \$19,407,761.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
 For the Fiscal Year Ended June 30, 2017

**Expenditures**

Figure A-6 reflects the breakdown by functional category of \$19,539,371 in expenditures and other financing uses for the district's general fund for 2016-17. Direct classroom instruction was approximately \$9.7 million. Support services includes library services, counselors, special education services, administration, clerical staff, maintenance/custodial staff, utilities, insurance, and transportation services. The remaining categories are self-explanatory.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

The original budget called for an operating increase of \$91,075, while the final amended budget called for an operating decrease of \$198,985.

***Revenues***

**Original budget to final budget** – Overall, there was a small decrease (\$22,895) in the total General Fund revenue budget from the original budget to the final amendment.

- State revenues ended slightly higher while Other Financing Sources Specific to Special Education came in slightly lower than the original budget.

**Final amendment to actual** – Total Revenues from the final Amendment to actual had a difference of \$2,676. Which equates to a 99.9% accuracy rating. There were no significant differences in Revenue from the final amendment to year-end actual.

***Expenditures***

**Original budget to final budget** – Overall, there was a 1.4% change in total General Fund expenditures budget from the original budget to the final budget. Overall, expenditure budgets increased approximately \$267,000. Significant differences include:

- Basic education budgets increased approximately \$165,000. Contributing factors include Salaries, Benefits and UAAL costs.
- Added costs rose just over \$127,000 due to increased At Risk and Title Grant Spending.
- Pupil support budgets increased by \$84,900 due to increase IDEA Grant Spending.
- Operations & maintenance budgets rose just over \$44,000. This increase is due to continued improvement to our facilities.
- Transportation budgets decreased approximately \$210,000 due mainly to the reclassification of Special Ed Transportation reimbursement from the Intermediate School District.
- Other central support budgets rose approximately \$33,000 mainly due to the addition of a Communications Director during the Fiscal Year.

**Final amendment to actual** – Total Expenditures from the Final Amendment to Actual had a difference of \$64,699. Which equates to a 99.7% accuracy rating. There were no significant differences in Expenditures from the final amendment to year-end actual.

***Factors Bearing on the District's Future***

**2017-18 District Budget**

The original adopted budget for the 2017-18 fiscal year projects a use of funds of \$46,207.

The district anticipated the foundation allowance to be \$7,631. The budget was developed with the anticipated enrollment of 2045 pupils.

The budget includes retirement costs at approximately 36.88% of payroll. This includes a flow-through of 11.32% for the UAAL stabilization. This budget will be amended twice during the fiscal year to reflect updated foundation allowance information, actual student counts, changes to any legislation, and final staffing assignments.

Oakridge Public Schools  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
For the Fiscal Year Ended June 30, 2017

The district has current contracts for two groups and is currently negotiating the teacher's union contract.

**Requests for Information**

This financial report is designed to provide the district's citizens, taxpayers, parents, students, investors and creditors with a general overview of the District's finances, and to show how the District is accountable for the money it receives. Questions concerning any of the information provided in this report, or requests for additional financial information should be addressed to Mr. Todd Hronek, Director of Finance, Oakridge Public Schools, 275 South Wolf Lake Road, Muskegon, MI 49442, telephone number (231) 788.7109.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
 TO THE STATEMENT OF NET POSITION**  
 June 30, 2017

Total fund balances—governmental funds \$ 2,330,817

Amounts reported for governmental activities in the Statement of  
 Net Position are different because:

Capital assets used in governmental activities are not current  
 financial resources and are not reported in the governmental funds.

Cost of capital assets	\$ 31,641,633	
Accumulated depreciation	<u>(10,516,147)</u>	21,125,486

Deferred charges on refunding are not capitalized and  
 amortized in the governmental funds.

Deferred charges on refunding	238,807	
Accumulated amortization	<u>(55,110)</u>	183,697

Deferred inflows and outflows of resources related to pensions  
 are not reported in the governmental funds.

Deferred outflows of resources - related to pensions	4,414,601	
Deferred inflows of resources - related to pensions	<u>(900,160)</u>	3,514,441

Accrued interest in governmental activities is not reported in the  
 governmental funds.

(114,378)

Long-term obligations in governmental activities are not due and  
 payable in the current period and are not reported in the  
 governmental funds.

(44,270,135)

Net position of governmental activities

\$ (17,230,072)

Oakridge Public Schools  
**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**  
For the year ended June 30, 2017

Net change in fund balances—total governmental funds \$ (110,768)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures; in the Statement of Activities these costs are depreciated over their estimated useful lives.

Depreciation expense	\$ (678,566)	
Capital outlay	<u>562,249</u>	(116,317)

Governmental funds report outflows for deferred charges on refunding as expenditures; in the Statement of Activities these costs are amortized over the bond period. (18,370)

Debt proceeds are other financing sources in the governmental funds, but the proceeds increase long-term debt in the Statement of Net Position. (350,105)

Repayment of principal on long-term obligations is an expenditure in the governmental funds, but the repayment reduces long-term obligations in the Statement of Net Position. 1,242,087

Interest expense on long-term obligations is recorded in the Statement of Activities when incurred, but is not reported in governmental funds until paid. 8,463

Compensated absences reported in the Statement of Activities do not require the use of current financial resources. They are reported as expenditures when financial resources are used in the governmental funds. (3,326)

Some pension related expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. (365,948)

Change in net position of governmental activities \$ 285,716

The accompanying notes are an integral part of this statement.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of Oakridge Public Schools (School District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

**Reporting Entity**

The School District is governed by an elected seven-member Board of Education (Board), which has responsibility and control over all activities related to public school education within the School District. The School District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities.

Generally accepted accounting principles require that if the School District is considered to be financially accountable for other organizations, those organizations should be included as component units in the School District's financial statements. Since no organizations met this criterion, none are included in the financial statements.

**Basis of Presentation—Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the School District. All fiduciary activities are reported only in the fund financial statements. Governmental activities normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The fund financial statements provide information about the School District's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The School District reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Basis of Presentation—Government-wide and Fund Financial Statements—Continued**

Additionally, the School District reports the following fund types:

The special revenue funds account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects). The School District accounts for its food services and technology activities in the school service special revenue funds.

The debt service funds account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The capital projects funds account for the financial resources to be used for the acquisition of fixed assets or construction of major capital projects.

The agency fund is custodial in nature and used to account for assets held by the School District as an agent for another organization or individual.

During the course of operations the School District has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, they are eliminated in the preparation of the government-wide financial statements.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, they are eliminated in the preparation of the government-wide financial statements.

**Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Measurement Focus and Basis of Accounting—Continued**

Property taxes, state and federal aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end).

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the school districts. For the current fiscal year, the foundation allowance was based on pupil membership counts taken in October and February.

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills on Principal Residence Exemption (PRE) property and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by non-PRE property taxes which may be levied at a rate of up to 18 mills. The state revenue is recognized during the foundation period and is funded through payments from October to August. Thus, the unpaid portion at June 30 is reported as due from other governmental units.

The School District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Certain governmental funds require an accounting to the state of the expenditures incurred. For categorical funds meeting this requirement, funds received and accrued, which are not expended by the close of the fiscal year are recorded as unearned revenue.

All other revenue items are considered to be measurable and available only when cash is received by the government.

The agency fund has no measurement focus, but utilizes the accrual basis of accounting for reporting its assets and liabilities.

**Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

***Cash and Investments***

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the School District are reported at fair value (generally based on quoted market prices). Standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the School District intends to hold the investment until maturity.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance—Continued**

***Cash and Investments—Continued***

State statutes authorize the School District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The School District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above. The School District's deposits and investments are in accordance with statutory authority.

***Inventories and Prepaid Items***

All inventories are valued at cost using the first-in/first-out method. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

***Capital Assets***

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

As the School District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated fair value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, and equipment, of the School District are depreciated using the straight-line method over the following estimated useful lives:

<u>Capital Asset Classes</u>	<u>Years</u>
Land improvements	10-20
Buildings and improvements	10-50
Equipment	5-20
Vehicles	8

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance—Continued**

***Long-term Obligations***

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the year in which they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

***Defined Benefit Plan***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***Deferred Outflows/Inflows of Resources***

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

***Net Position Flow Assumption***

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts of net position to report as restricted and unrestricted in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

In the computation of net investment in capital assets, School Bond Loan Fund and School Loan Revolving Fund debt is not considered to be capital related debt.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance—Continued**

***Fund Balance Flow Assumptions***

Sometimes the School District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

***Fund Balance Policies***

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District's highest level of decision-making authority. The Board of Education is the highest level of decision-making authority for the School District that can, by formal action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by formal action remains in place until a similar action is taken (another formal action) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as committed. The Board of Education has authorized the Director of Finance to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**Revenues and Expenditures/Expenses**

***Program Revenues***

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, unrestricted state aid, interest and other internally dedicated resources are reported as general revenues rather than as program revenues.

***Property Taxes***

Property taxes levied by the School District are collected by various municipalities and periodically remitted to the School District. The taxes are levied as of December 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due date is February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued**

**Revenues and Expenditures/Expenses—Continued**

***Compensated Absences***

The liability for compensated absences reported in the government-wide statement consists of unpaid, accumulated sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

For fund financial statements, no compensated absence liability is reported for current employees and a compensated absence liability is reported for terminated employees only when the termination date is on or before year end.

**NOTE B—STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**Budgets and Budgetary Accounting**

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the General Fund and special revenue funds. All annual appropriations lapse at year end.

The School District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to July 1, the budget is legally adopted by Board of Education resolution pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, in the General Fund are noted in the required supplementary information section.
4. The Director of Finance is authorized to transfer budgeted amounts within major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the Board of Education.
5. Formal budgetary integration is employed as a management control device during the year.
6. The budget is amended during the year with supplemental appropriations, the last one approved prior to June 30, 2017.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE B—STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY—Continued**

**Fund Deficits**

As of June 30, 2017, the Technology Fund had a deficit of \$16,900. The deficit will be eliminated through future operations and transfers.

**NOTE C—DEPOSITS AND INVESTMENTS**

As of June 30, 2017, the School District had no investments.

**Interest rate risk**

In accordance with its investment policy, the School District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in interest rates by using the following methods: segmented time distribution, specific identification, weighted average maturity, duration and simulation model.

**Credit risk**

State law limits investments in commercial paper and corporate bonds to the three highest classifications issued by nationally recognized statistical rating organizations. The School District has no investment policy that would further limit its investment choices.

**Concentration of credit risk**

In accordance with its investment policy, the School District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the School District investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. Investments in any one type of non-U.S. Treasury securities may be no more than 10 percent of the total current investment portfolio. There were no investment concentrations as of June 30, 2017.

**Custodial credit risk - deposits**

In the case of deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. As of June 30, 2017, \$1,464,807 of the School District's bank balance of \$1,714,807 was exposed to custodial credit risk because it was uninsured and uncollateralized.

**Custodial credit risk - investments**

For an investment this is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The School District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities allowed by law and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the School District will do business.

**Foreign currency risk**

The School District is not authorized to invest in investments which have this type of risk.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE D—CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2017 was as follows:

	<b>Balance July 1, 2016</b>	<b>Additions</b>	<b>Deductions</b>	<b>Balance June 30, 2017</b>
<b>Capital assets, not being depreciated:</b>				
Land	\$ 105,000	\$ -	\$ -	\$ 105,000
<b>Capital assets, being depreciated:</b>

Buildings and improvements	7,388,512	490,535	7,938	7,871,109
Equipment	830,322	77,180	-	907,502
Vehicles	604,524	34,944	25,700	613,768
Total accumulated depreciation	9,871,219	678,566	33,638	10,516,147
Total capital assets, being depreciated, net	21,136,803	(116,317)	-	21,020,486
Capital assets, net	<b>\$ 21,241,803</b>	<b>\$ (116,317)</b>	<b>\$ -</b>	<b>\$ 21,125,486</b>

**Depreciation**

Depreciation expense has been charged to functions as follows:

Instruction	\$ 505,327
Support services	48,751
Food services	5,133
Athletics	73,987
Unallocated depreciation	45,368
	<b>\$ 678,566</b>

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE E—INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS**

The composition of interfund balances as of June 30, 2017 is as follows:

**Due to/from other funds:**

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General Fund	Other governmental funds	<u>\$ 26,400</u>

The outstanding balances between funds result mainly from the time lag between the dates that (1) reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The General Fund transferred \$15,000 to the Building and Site Capital Projects Fund to finance operations, and the Food Service Fund transferred \$29,500 to the General Fund to cover allowable indirect costs.

**NOTE F—SHORT-TERM DEBT**

The School District issues State of Michigan school aid anticipation notes to provide short-term operating funds. The notes are obligations of the General Fund, which received the note proceeds, and are backed by the full faith, credit and resources of the School District. The short-term debt activity for the year ended June 30, 2017 follows:

	<u>Balance</u> <u>July 1, 2016</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>June 30, 2017</u>
State aid anticipation note				
2015/2016 .76% due July 2016	\$ 239,926	\$ -	\$ 239,926	\$ -

**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE G—LONG-TERM OBLIGATIONS**

The School District issues bonds, notes and other contractual commitments to provide for the acquisition, construction and improvement of major capital facilities and for the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Other obligations include the School Bond Loan Fund and the School Loan Revolving Fund.

The following is a summary of long-term obligations activity for the School District for the year ended June 30, 2017:

	<b>Balance</b>			<b>Balance</b>	<b>Due within</b>
	<b>July 1, 2016</b>	<b>Additions</b>	<b>Reductions</b>	<b>June 30, 2017</b>	<b>one year</b>
<b>Governmental activities</b>					
Bonds	\$ 14,955,000	\$ -	\$ 1,175,000	\$ 13,780,000	\$ 1,205,000
Premium	737,959	-	67,087	670,872	67,087
Other obligations	3,212,890	350,105	-	3,562,995	-
Compensated absences	100,264	18,466	15,140	103,590	20,000
	<b>\$ 19,006,113</b>	<b>\$ 368,571</b>	<b>\$ 1,257,227</b>	<b>\$ 18,117,457</b>	<b>\$ 1,292,087</b>

In the previous schedule, the addition for other obligations represents \$50,912 of accrued interest on the School Bond Loan Fund and \$54,253 of accrued interest and \$244,940 of additional draws on the School Loan Revolving Fund.

Bonds and other obligations consist of the following:

	<b>Interest Rate</b>	<b>Date of Maturity</b>	<b>Balance</b>
<b>Governmental activities:</b>			
Bonds			
2015 Refunding General Obligation Bond	3-5%	May 2028	\$ 8,315,000
2011 General Obligation Bond	4.7-6.75%	May 2026	5,465,000
			<b>\$ 13,780,000</b>
Other obligations			
School Bond Loan Fund	3.13%	May 2034	\$ 1,654,010
School Loan Revolving Fund	3.13%	May 2034	1,908,985
			<b>\$ 3,562,995</b>

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE G—LONG-TERM OBLIGATIONS—Continued**

The annual requirements of principal and interest to amortize the bonded debt outstanding as of June 30, 2017 follow:

<b>Year ending June 30,</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2018	\$ 1,205,000	\$ 686,268	\$ 1,891,268
2019	1,235,000	631,468	1,866,468
2020	1,275,000	566,918	1,841,918
2021	1,315,000	498,608	1,813,608
2022	1,360,000	424,825	1,784,825
2023-2027	6,605,000	1,003,045	7,608,045
2028	785,000	23,550	808,550
	<b>\$ 13,780,000</b>	<b>\$ 3,834,682</b>	<b>\$ 17,614,682</b>

**NOTE H—EMPLOYEE BENEFITS**

*Employee Retirement System*

**Plan Description**

The Michigan Public School Employees' Retirement System (MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. MPSERS issues a publicly available Comprehensive Annual Financial Report that can be obtained at [www.michigan.gov/mpsers-cafr](http://www.michigan.gov/mpsers-cafr).

**Benefits Provided**

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected (Basic, Member Investment Plan (MIP), Pension Plus), member retirement benefits for DB plan members are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

***Pension Reform 2010***

On May 19, 2010, the Governor signed Public Act 75 of 2010 into law. As a result, any member of the Michigan Public School Employees' Retirement System who became a member after June 30, 2010 is a Pension Plus member. Pension Plus is a hybrid plan that contains a pension component with an employee contribution (graded, up to 6.4% of salary) and a flexible and transferable defined contribution (DC) tax-deferred investment account that earns an employer match of 50% (up to 1% of salary) on employee contributions. Retirement benefits for Pension Plus members are determined by final average compensation and years of service. Disability and survivor benefits are available to Pension Plus members.

***Pension Reform 2012***

On September 4, 2012, the Governor signed Public Act 300 of 2012 into law. The legislation grants all active members who first became a member before July 1, 2010 and who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional service or military leave of absence on September 3, 2012, a voluntary election regarding their pension. Any changes to a member's pension are effective as of the member's *transition date*, which is defined as the first day of the pay period that begins on or after February 1, 2013. Under the reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund.

Employees who first work on or after September 4, 2012, choose between two retirement plans: the Pension Plus plan described above and a DC plan that provides a 50% employer match (up to 3% of salary) on employee contributions. New employees are automatically enrolled as members in the Pension Plus plan as of their date of hire. They have 75 days from the last day of their first pay period, as reported to ORS, to elect to opt out of the Pension Plus plan and become a qualified participant in the DC plan; if no election is made they will remain in the Pension Plus plan. If they elect to opt out of the Pension Plus plan, their participation in the DC plan will be retroactive to their date of hire.

Employees in the Pension Plus and DC plans are immediately vested in their own contributions and earnings on those contributions. The employee becomes vested in the employer match contribution at the following rates: 50% after two years of service, 75% after three years of service, and 100% after four years of service. Non-vested contributions are forfeited upon termination of employment. Forfeitures during a plan year are credited to a forfeitures account. Forfeitures are first applied to restore any forfeited amounts that are required to be restored. The remaining amounts in the forfeitures account may be maintained in reserve, used to cover a portion of the plan's administrative expenses or offset future employer contributions, as determined by the plan administrator.

***Regular Retirement***

The pension benefit for DB and Pension Plus plan members is based on a member's years of credited service (employment) and final average compensation (FAC). The FAC is calculated based on the member's highest total wages earned during a specific period of consecutive calendar months divided by the service credit accrued during that same time period. For a Member Investment Plan member, who became a member of MPSERS prior to July 1, 2010, the averaging period is 36 consecutive months. For a Pension Plus member, who became a member of MPSERS after June 30, 2010, the averaging period is 60 consecutive months. For a Basic Plan member, this period is the 60 consecutive months yielding the highest total wages. The annual pension is paid monthly for the lifetime of a retiree. The calculation of a member's pension is determined by their pension election under PA 300 of 2012.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

***Post-Retirement Adjustments***

A retiree who became a Member Investment Plan member prior to July 1, 2010, receives an annual post-retirement non-compounded increase of three percent of the initial pension in the October following twelve months of retirement. Basic Plan members do not receive an annual post-retirement increase, but are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions. Pension Plus members do not receive an annual post-retirement increase.

***Plan Status***

The Basic and MIP plans are closed to new entrants. The Pension Plus plan will close to new entrants beginning with those hired after January 31, 2018. The DC plan is still open to new entrants.

**Contributions**

School Districts are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2016 valuation will be amortized over a 20-year period for the 2016 fiscal year.

The schedule below summarizes pension contribution rates in effect for the System’s fiscal year ended September 30, 2016.

**Pension Contribution Rates**

<u>Benefit Structure</u>	<u>Member</u>	<u>Employer</u>
Basic	0.0 - 4.0 %	18.95 - 22.60 %
Member Investment Plan	3.0 - 7.0	18.95 - 22.60
Pension Plus	3.0 - 6.4	17.73
Defined Contribution	0.0	14.56 - 17.73

The School District’s pension contributions for the year ended June 30, 2017 were equal to the required contribution total. Pension contributions were approximately \$2,541,000 including Section 147c contributions.

For the year ended June 30, 2017 and 2016, the School District and employee defined contribution plan contributions were approximately \$43,674 and \$70,428, respectively.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2017, the School District reported a liability of \$26,152,678 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 30, 2015. The School District’s proportion of the net pension liability was determined by dividing each employer’s statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required for all applicable employers during the measurement period. At September 30, 2016 and 2015, the School District’s proportion was 0.10482 and 0.10034 percent, respectfully.

For the year ended June 30, 2017, the School District recognized pension expense of \$2,750,848.

At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 325,931	\$ 61,983
Changes of assumptions	408,877	-
Net difference between projected and actual earnings on pension plan investments	434,657	-
Changes in proportion and differences between School District contributions and proportionate share of contributions	923,030	15,892
State of Michigan Section 147c UAAL rate stabilization state aid payments subsequent to the measurement date	-	822,285
School District contributions subsequent to the measurement date	2,322,106	-
<b>Total</b>	<b>\$ 4,414,601</b>	<b>\$ 900,160</b>

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

The School District contributions subsequent to the measurement date of \$2,322,106 reported as deferred outflows of resources related to pensions above, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. The State of Michigan Section 147c UAAL rate stabilization state aid payments subsequent to the measurement date of \$822,285 reported as deferred inflows of resources related to pensions above, will be recognized as revenue in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30,	Amount
2018	\$ 464,121
2019	429,940
2020	878,091
2021	242,468

**Actuarial assumptions**

***Valuation Assumptions***

Investment rate of return –	8% a year for the MIP and Basic plans and 7% a year for the Pension Plus plan, both rates are compounded annually net of investment and administrative expenses.
Salary increases –	3.5%-12.3%
Inflation –	3.5%
Cost-of-living adjustments –	3% annual non-compounded for MIP members

***Mortality Assumptions***

The healthy life post-retirement mortality table used in this valuation of the System was the RP-2000 Combined Healthy Life Mortality Table, adjusted for mortality improvements to 2020 using projection scale AA.

***Experience Study***

The annual actuarial valuation report of the System used for these statements is dated September 30, 2015. Assumption changes as a result of an experience study for the periods 2007 through 2012 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2014 valuation.

***Long-Term Expected Rate of Return on Investments***

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

**Actuarial Assumptions—Continued**

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return*</u>
Domestic Equity Pools	28.0 %	5.9 %
Alternative Investment Pools	18.0	9.2
International Equity Pools	16.0	7.2
Fixed Income Pools	10.5	0.9
Real Estate and Infrastructure Pools	10.0	4.3
Absolute Return Pools	15.5	6.0
Short Term Investment Pools	2.0	0.0
<b>Total</b>	<b>100.0 %</b>	

\*Long term rates of return are net of administrative expenses and 2.1% inflation.

**Discount rate**

The discount rate used to measure the total pension liability was 8 percent (7 percent for the Pension Plus Plan). The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the net pension liability to changes in the discount rate**

The following presents the School District’s proportionate share of the net pension liability calculated using the discount rate of 8 percent (7 percent for Pension Plus Plan), as well as what the School District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7 percent) or 1 percentage point higher (9 percent) than the current rate:

	<u>1% Lower (7%)</u>	<u>Discount Rate (8%)</u>	<u>1% Higher (9%)</u>
School District’s proportionate share of the net pension liability	\$ 33,678,066	\$ 26,152,678	\$ 19,808,052

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan’s fiduciary net position is available in the separately issued Michigan Public School Employees Retirement System 2016 Comprehensive Annual Financial Report.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE H—EMPLOYEE BENEFITS—Continued**

***Other Post-employment Benefits***

**Introduction**

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree health care recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP-Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Post-employment Benefits, members who first worked on or after July 1, 2008, (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80 percent beginning January 1, 2013; 90 percent for those Medicare eligible and enrolled in the insurances as of that date.

Public Act 75 of 2010 requires each actively employed member of MPSERS after June 30, 2010 to annually contribute 3 percent of their compensation to offset employer contributions for health care benefits of current retirees.

**Retiree Healthcare Reform of 2012**

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012, or were on an approved professional service or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions will be deposited into their 401(k) accounts.

**Employer Contributions**

The School District is required to contribute the full actuarial funding contribution amount to fund retiree health care benefits. The contribution requirements of the School District are established and may be amended by the MPSERS Board of Trustees. The employer contribution rate ranged from 5.52% - 6.45% of covered payroll for the period October 1, 2013 to March 9, 2015, 2.2% - 2.71% of covered payroll for the period March 10, 2015 to September 30, 2015, 6.4% - 6.83% of covered payroll for the period October 1, 2015 to September 30, 2016, and from 5.69%-5.91% of covered payroll for the period October 1, 2016 to June 30, 2017. The School District post-employment healthcare contributions to MPSERS for the years ended June 30, 2017, 2016 and 2015 were approximately \$552,000, \$508,000 and \$185,000 respectively, and were equal to the required contribution for those years.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
 June 30, 2017

**NOTE I—COMMITMENTS AND CONTINGENCIES**

**Commitments**

- **Operating Leases** - The School District has lease agreements expiring at various dates through August 2019. Expense for the year ended June 30, 2017 was approximately \$101,500. The following is a schedule of future minimum rental payments required under operating leases for School District buses.

<u>Year ending June 30,</u>	<u>Amount</u>
2018	\$ 256,808
2019	204,967
2020	164,100
	<u><u>\$ 625,875</u></u>

**Litigation**

The School District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the School District’s legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the School District.

**Grant Programs**

The School District participates in grant programs, which are subject to program compliance audits by the grantor or its representatives. Such audits of these programs may be performed at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

**NOTE J—TAX ABATEMENTS**

For the year ended June 30, 2017 the School District adopted GASB Statement 77—Tax Abatement Disclosures.

The School District receives reduced property tax revenues as a result of Industrial Facilities Tax (IFT) exemptions, Brownfield Redevelopment Agreements (BRA), and Payments in Lieu of Taxes (PILOT) granted by cities, villages and townships. Industrial facility exemptions are intended to promote construction of new industrial facilities, or to rehabilitate historical facilities; Brownfield Redevelopment Agreements are intended to reimburse taxpayers that remediate environmental contamination on their properties; PILOT programs apply to multiple unit housing for citizens of low income and the elderly. The property taxes abated for all fund types by municipality under these programs are as follows:

<u>Municipality</u>	<u>Abatement Type</u>	<u>Taxes Abated</u>
Egelston	IFT	\$ 107,662

The tax abatements that reduce the general fund operating tax levy are considered by the State of Michigan when calculating the School District’s state aid—section 22 of the State School Aid Act.

There are no significant abatements made by the School District.

Oakridge Public Schools  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2017

**NOTE K—OTHER INFORMATION**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. The School District participates in two distinct pools of educational institutions within the State of Michigan for self-insuring property and casualty and workers' disability compensation. The pools are considered public entity risk pools. The School District pays annual premiums under a retrospectively rated policy to the pools for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The workers' compensation pool and the property casualty pool maintain reinsurance for claims generally in excess of \$500,000 for each occurrence with the overall maximum coverage varying depending on the specific type coverage of reinsurance.

The School District continues to carry commercial insurance for other risks of loss, including employee health and accident insurance. No settlements have occurred in excess of coverage for June 30, 2017 or any of the prior three years.

**NOTE L—SUBSEQUENT EVENT**

In August 2017, the School District received the proceeds of a \$2,100,000 State of Michigan (State) school aid anticipation note payable. The note payable is not subject to redemption prior to its maturity in July 2018 and bears interest at the rate of 1.27 percent per annum. The School District pledged for payment of the notes payable, the amount of state school aid to be received plus the full faith, credit, and resources of the School District.

**NOTE M—UPCOMING ACCOUNTING PRONOUNCEMENT**

*GASB Statement 75—Accounting and Financial Reporting for Postemployment Benefits other than Pensions* was issued by the GASB in June 2015 and will be effective for the School District's 2018 fiscal year. The statement requires governments that participate in postemployment benefits other than pensions (OPEB) to report in their Statement of Net Position a net OPEB liability. The net OPEB liability is the difference between the total OPEB liability (the present value of projected benefit payments to employees based on their past service) and the assets (mostly investments reported at fair value) set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. Cost-sharing employers will be required to record a liability and expense equal to their proportionate share of the collective net OPEB liability and expense for the cost-sharing plan. The net OPEB liability recorded in the Statement of Net Position on July 1, 2017 will be very significant.

*GASB Statement 84—Fiduciary Activities* was issued by the GASB in January 2017 and will be effective for the School District's 2020 fiscal year. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities for all state and local governments. The focus on the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements.
